The new dimension of injection molding Machines in the GX Series

Powerful, user-friendly, with stable value. The new GX Series of KraussMaffei combines innovative technology and first-rate quality in an unprecedented way:

- Maximum productivity thanks to an excellent hydromechanical dual platen clamping unit
- Maximum part quality thanks to the GearX locking device unit and GuideX guide shoe
- Maximum reproducibility with highly efficient plasticizing unit
- Minimum set-up times thanks to easy accessibility
- Easy operation with the new innovative MC6 control system

The new GX Series of KraussMaffei:
Engineering inspired by passion. First-class machine concept. Best results.

Engineering Passion
